

**RADIOLOGICAL SOCIETY OF NORTH AMERICA
CLINICAL TRIALS METHODOLOGY WORKSHOP
Coronado, California
January 7-13, 2023**

Course Description

Clinical trials are essential to evaluating the effectiveness of new imaging technologies, however imaging professionals do not normally receive formal training in how to properly design clinical trials. Without this skill it is difficult to conduct studies that are competitive for grant funding or properly evaluate and study imaging technologies. This six-day intensive workshop enables participants to work closely with experienced and knowledgeable faculty to build their skills to design and carry out a clinical trial.

Program Learning Objectives

At the conclusion of this live activity, participants will be able to:

1. Identify principles of clinical trial design as they apply to studies of imaging technologies for diagnosis and disease monitoring, screening, and image-guided therapy.
2. Implement the principles for incorporating imaging as a primary or important secondary endpoint in therapeutic trials.
3. Comprehend the regulatory, funding and other implementation issues associated with clinical trials using imaging.
4. Develop a clinical trial protocol for the evaluation of an imaging modality or for the use of imaging as an endpoint in a therapeutic trial.

Accreditation and Designation Statement

The Radiological Society of North America (RSNA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

RSNA designates this Live activity for a maximum of 38.25 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Financial Disclosures – Planning and Faculty

RSNA controls the planning, development, and delivery of this CME activity and will strictly adhere to the Standards for Integrity and Independence in Accredited Continuing Education established by the Accreditation Council for Continuing Medical Education (ACCME).

No relevant financial relationships with any ineligible companies

Off-label Disclosure

The RSNA recognizes that at scientific meetings, faculty may discuss the application of some devices, materials, or pharmaceuticals that are not FDA approved. In keeping with the highest standards of professional integrity and ethics, it is required that faculty fully disclose to their audience that there will be discussion of the unlabeled use of a commercial product, device, or pharmaceutical that has not been approved for such purposes by the FDA.

How to Claim CME Credit

- A link to the course evaluation will be given to all participants on site.
 - Upon completion of the evaluation, your CME credits and CME certificate will be emailed to you to view and print.
- Please complete the evaluation by January 20, 2023.**
