RSNA/QIBA Disclosure of Conflict of Interest

As agreed after discussion on the July and August 2012 QIBA Steering Committee teleconferences, in the interest of transparency, and to address concerns expressed by potential QIBA partners, QIBA SC members are asked to complete a conflict of interest disclosure form., on an annual basis.

A conflict of interest may occur whenever an individual or member of that individual’s immediate family (including spouse, dependent children or other financially dependent family members) has a direct or indirect interest or relationship, financial or otherwise, that may influence the individual’s ability to exercise independent judgment in any action affecting RSNA or its members. A conflict of interest may exist in those instances where the communications or actions of an individual on behalf of RSNA/QIBA would (a) result in personal gain or advantage, (b) have an adverse effect on RSNA’s (QIBA’s) interests, or (c) obtain a gain or advantage for a third party to whom the individual has some fiduciary duty. A conflict of interest does not necessarily make an individual ineligible to serve, but may limit the individual’s ability to participate in certain activities or discussions.

Members of the QIBA Steering Committee have made the following disclosures:

**Katherine P. Andriole, PhD**
Radiological Society of North America (RSNA)
Member, RIC, Chair QIBA-RIC Committee, Chair, QIRR Exhibits
American Medical Informatics Association (AMIA)
Member, Advanced Inter-professional Informatics Certification Committee
Academy of Radiology Research (ARR)
Member, Board of Directors
Journal of Digital Imaging, Society of Imaging Informatics
In Medicine (SIIM)
Associate Editor
Journal of Medical Imaging, Society for Photo-Optical Instrumentation Engineers (SPIE)
Associate Editor
McKinsey and Company, Inc.
Member, Advisory Board of Medical Imaging

**Andrew J. Buckler, MS**
Elucid Bioimaging, Inc.
President and CEO
vascus, Inc.
